## Why Acting

I believe that to make a career for yourself as an actor you must be intelligent, open to new ideas, and constantly learning. These traits are just a few of the many that I value, but I believe that my training in college will only help me to grow in all three of these areas. Actors provide a unique opportunity to try to change the worldview of the audience every time they perform. There is not a more impactful or meaningful career for myself than being an actor.
